Hiba,

Your BBA isn't going to make you jump higher or find the answer to all of life's deepest questions. But it can make you really great at business and increase your earning potential.

In 2017, the Bureau of Labor Statistics reported that workers with a bachelor's degree earned an average of \$1,193 per week compared to those with an associate's degree who earned an average of \$761. That's over a 50% increase in income.

### AVERAGE SALARY PER WEEK

And the best part? The National Association of Colleges and Employers named business as one of the top majors for higher earning potential. Seeing the value yet?

Get your online BBA from Texas Wesleyan and cash in on your new career in as little as 3 years. Now that's a good investment.
